

PRAGUE CONGRESS CENTRE

YOUR PATH TO A GREEN EVENT

Did you know that the newly refurbished venue annually saves **11 533m³ of water** (3 Olympic pools), **9 740 945 kWh of energy** (consumption of 5019 households) and **726 tons of CO²** that would take one year for 33 456 trees to clean?

In **20 halls and 50 meeting rooms** with total capacity up to **10 000 persons** its engineering technologies provide every event with eco-friendly comfort –a solution for all environmentally conscious organisers.

Go paperless with our digital navigation system with over 190 flat screens & mobile application for inhouse navigation

Eat locally produced food eliminating logistics and carbon foot print

Light up with energy saving LED lights & dimming houselights in all rooms with capacity from 50 people

Go zero waste with our catering solutions avoiding excess food and plastic dinner ware

Enjoy our green view of the Vyšehrad park area and the Prague city panorama

Get here by metro we are directly next to Vyšehrad station line C

Feel the change
